DETAILED ACTION

1. Claims 27-28, 34-35 and 40-41 are pending.
2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 02/24/2006 has been entered.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 27-28, 34-35 and 40-41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Guldi et al (US 6420792) in view of Grube et al (US 5535431).

Art Unit: 2137

As per claims 27-28, 34-35 and 40-41, Guldi et al discloses moving a part (see column 12 lines 11-18); inputting an output from a device used for detecting information for positioning the part moved; and transmitting data in accordance with the output (see column 12 lines 19-58).

Guldi et al fails to disclose the transmission is to a remote site and includes a GPS signal.

However, Grube et al teaches such data being transmitted to a remote site (see column 3 lines 7-29).

At the time of the invention it would have been obvious to a person of ordinary skill in the art to transmit Guldi et al's ID with the GPS signal to a remote site.

Motivation to do so would have been to prevent unauthorized use of the system (see Grube et al column 2 lines 60-68).

Response to Arguments

5. Applicant's arguments with respect to claims 27, 28, 34, 35, 40 and 41 have been considered but are moot in view of the new ground(s) of rejection.
